

**Directions:** this is your chance to do some real-world research and find an apartment (or townhouse, condo, etc.) you love! Let's assume you are 25 and just landed a great job that will allow you to live completely on your own. Remember, you will be living in the apartment with no roommates, so you must be able to afford it. Your job provides you with a **gross** income of \$38,772 yearly. Use this information along with the links provided below to answer the following questions. Type all answers in the shaded boxes.

When you are finished, use the "turn in" button to submit the assignment via Google Classroom.

---

### WHAT CAN YOU AFFORD?

Answer this section of questions in the form [HERE](#). The form is set so you can submit it and see which answers are correct. If you have incorrect answers, please recalculate and resubmit until all answers are correct. You will need to know the correct amount you can afford before searching for an apartment in the next section.

### APARTMENT DETAILS

Now that you know how much you can afford per month, use <https://www.apartments.com/> to find an apartment anywhere in the U.S. that is within your budget.

1.) Apartment Complex Name:

2.) Address (including street address, city, state, and zip):

3.) Rent per month:

4.) Length of lease available:

5.) # of bedrooms:

6.) # of baths:

7.) Amenities: (list 4 [amenities](#) that appeal to you; for example: the building takes pets, location in downtown, community pool, clubhouse, etc.)

1.
2.
3.
4.

### MOVE-IN COSTS

Watch the following video clip about move-in costs [HERE](#). These are usually listed under “One-time Expenses” at apartments.com.

8.) List all move-in costs/one-time expenses for this apartment:

One-time fee:	Amount:

**PETS** (assume you have none now, but may want to in the future)

9.) Are pets allowed? (if the answer is “no” stop here and turn in assignment; if answer is yes continue to #10)

10.) Are any types of pets specifically not allowed?

11.) If pets are allowed, list additional fees:
