

Levels of Giftedness

Level	IQ Range	Prevalence
Mildly (or basically) Gifted	115 - 129	1:6 - 1:44
Moderately Gifted	130 - 144	1:44 - 1:1000
Highly Gifted	145 - 159	1:1000 - 10,000
Exceptionally Gifted	160 - 179	1:10,000 - 1:1 million
Profoundly Gifted	180+	Fewer than 1:1million

Giftedness is found at several levels. The further a person's Intelligence Quotient is from the norm of 100 IQ, the more complexities that person has. Issues are similar to those of a student with an IQ much lower than the "average" person. It is difficult to fit into the expectations and lifestyle of "average" folks when the IQ becomes extreme. More great information can be found at Hoagies Gifted (www.hoagiesgifted.org/underserved.htm).

The "Bell Curve"

Read about the "bell-curve" at Hoagies Gifted (www.hoagiesgifted.org/underserved.htm). People who perform at the 95th percentile or above in Cognitive Ability, Academic Ability, Creative Thinking Ability, or Visual and Performing Arts ability are defined as Gifted by the State of Ohio.
