Famous Painting Play

This assignment will be completed without drawing, painting, sewing, or sculpting. This will be done using research, scavenging and hunting, and creative thinking skills. You will be setting up an entire scene. Just follow the steps provided. Remember, this is an extended project. You will research, organize, set up, and photo using many days of preparation.

Famous Painting Play

1. Review the examples provided.
2. Research and search the internet for a famous painting you may want to do. Make sure, in your mind, you have the material and props (you can make the props) to re-create the painted image. You can use bedspreads, curtains, sheets, cars, make-up, drawings, or anything else to create a background. Use your own furniture. Have family help with the modeling. Do not limit yourself to inside. You are allowed to go outside. Use nature if your painting is landscaped. Be creative!!!!!! This should take a few days to plan and gather supplies. If you solicit help make sure you stay six (6) feet apart and no one feels sick or has a fever.
3. Set your painting scene and record by taking a photo. You will have to get someone else to take the photo if you are the model.
4. Send the finished photo and a picture of the original famous painting to your teacher's Google Classroom or you can email the information to your teacher.
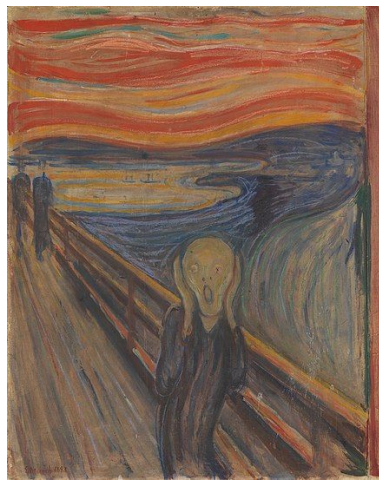

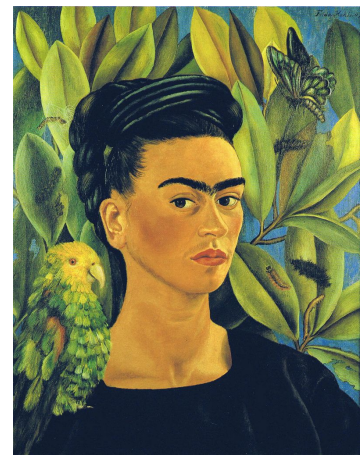

Stay safe and have fun!
